Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art fails to teach that the two first links, the two second links, and the two third links are substantially V-shaped and the second end of the two third links is mounted to a substantially V-shaped connecting seat, which is attached to the saw seat. The prior art also fails to teach that the second end of the first two links pivotally connected to the first end of the second two links, the second end of the second two links is pivotally connected to the first end of the third two links, and the first end of the first two links is pivotally connected to the positioning seat as set forth in claim 1.

Regarding claim 1, Shiotani et al. (5,257,570), hereinafter Shiotani and Olsen (1,765,733) teach a circular sawing machine including a base and a saw seat, which is movable relative to the base 1. Shiotani and Olsen also teaches a link mechanism which is pivotally mounted between the base and the saw seat, so that the saw seat is linearly movable relative to the base. Shiotani and Olsen also teach two opposite first links pivotally connected to the saw seat and two third or second links connected to positioning seat of the circular saw. However, Shiotani and Olsen fail to teach that the two first links, the two second links, and the two third links are substantially V-shaped and the second end of the two third links is mounted to a substantially V-shaped connecting seat, which is attached to the saw seat. Shiotani and Olsen also fail to teach that the second end of the first two links pivotally connected to the first end of the second two links, the second end of the second two links is pivotally connected to the first end of the third two links, and the first end of the first two links is pivotally connected to the positioning seat as set forth in claim 1.

Art Unit: 3724

None of these references by themselves or in combination with the other prior art cited teach the claimed invention set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
